**ATHLEISURE  
CAPSULE**

# A MESSAGE FROM MONIQUE & THE PRODUCT TEAM

To continue the momentum of Athleisure focus from July, we consider the September Athleisure Capsule as its Part II extension .

Design - wise we have weaved in simple two - tone ribbons as a detail .

A special attribute of the ribbon on the skirt is the functional feature for Golfers to insert those usually hard - to - house tees .

## Material Highlight:

It all traces back to the roots of our supreme material signature Catalina Cloth that JMCL is known for .

JMcLaughlin Catalina Cloth fabric content is 91% Nylon with 9% Spandex .

This was originally found in vintage French Bathing Suits .

Unlike most of the workout clothes in the market utilizing Polyester or Nylon6,

JMcL uses Premium Nylon 66 (Tactel) fiber as its main component .

## Benefits of Nylon 66:

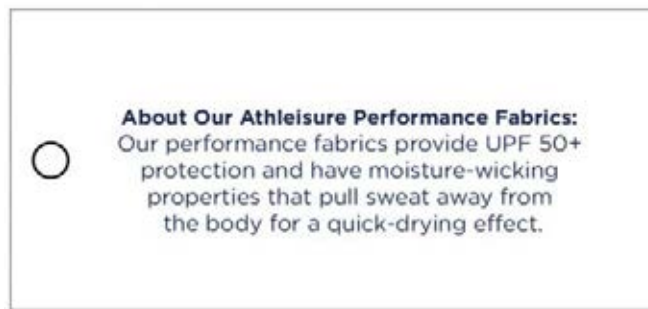

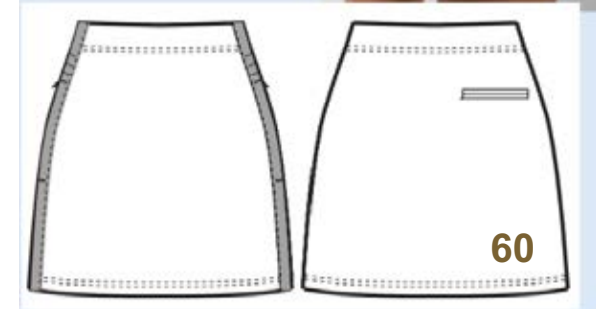

- 1). Soft Touch with strong Air Permeability - very skin friendly !
- 2). Great stretch recovery, whether it is strenuous exercise or yoga with high degree of extension .
- 3). Higher abrasion resistance . ( 33% more resistant to abrasion than Nylon 6 )
- 4). Easy to Clean Up - It can be hand - washed or machine - washed, and the drying time is three times faster than Cotton.
- 5). Anti - Wrinkle (easy travel piece)

As outdoor sports have evolved & thanks to the partnership of our long-term material partners, we have added UPS 50+ protection & wicking function on the Catalina Cloth .

## For the Athleisure Products :

The PD team is currently working on special tag that will be available from 2024 Dec. Resort collection

There will be novel material development as the Athleisure continues to bloom & thrive , stay tuned !
